

STOP HIV/AIDS Structured Learning Collaborative

QI Coach Monthly Report on Teams

QI Coach Monthly Report on Teams

QI Coach: Michael Kerr
Contact: 250-645-6297

Month of Report: May, 2011

The purpose of this report is to capture a brief status report on the progress of your team and to share that information with the Collaborative staff to **optimize learning and sharing**. This information will also be a great guide to our monthly teleconference calls.

To complete this form, please enter the team(s) name for which you are responsible for supporting and provide a high level overview of the team's progress. Please share you thoughts, concerns, and general comments on team progress.

Please complete the form and submit for the 4th business day after the first of the month. You may either print and fax the form to the attention of Christina Clarke at 604-742-1773, or email the form to cclarke@impactbc.ca. Thanks!

Team Name: Northern BC	Comments relevant to team status (concerns, comments,
Governance	Governance is still slow, but the discussions are good on this topic. Meetings have taken place and the functions and processes have been mapped to help with moving this forward.
HIV numbers	The numbers are starting to come together. Thanks to CINHS for their efforts. Looks like we will just use their figures for the collaborative. Further discussion has happened this month on data. Using the EMR we have and understanding what data is important and why we are capturing it are happening. Funny that some conversations get bogged down in the science of data collection and as coach on occasion have to remind us this is about what we capture for improving patient outcomes and not just about data.
Meetings	1) We were pleased to have the Collaborative leads come to Prince George this month and had a meaningful conversation around the struggles on governance and data. The input on expectations and data was helpful as gathering data is one challenge – making it meaningful and sustainable is another.
Med. Adherence	This is starting to move forward. Ongoing efforts are happening.
