

Indicators Related to Foundational Activities in the CBO Sector Logic Model

Indicator 42: Percent of CBOs using at least one common indicator to measure progress towards collective outcomes	
Description	<ul style="list-style-type: none"> Percent of CBOs providing HIV/HCV programs and services that are using at least one common indicator to measure progress towards collective outcomes.
Significance	<ul style="list-style-type: none"> Measuring indicators consistently across CBOs allows organizations to learn from each other's success and failures (Kania & Kramer, 2011). When the work of CBOs is measured in different ways, it is not possible to compare the relative effectiveness of different organizations in order to make informed choices, and CBOs cannot identify and learn from their peers' successful practices (Kramer, Parkhurst, & Vaidyanathan, 2009).
Data source	<ul style="list-style-type: none"> CBO survey
Possible disaggregation	<ul style="list-style-type: none"> Types of common measures used to track progress towards collective outcomes
Limitations	<ul style="list-style-type: none"> Need to conduct survey with all CBOs to accurately report on indicator
