

Stigma Intervention Deliberative Dialogue

November 21, 2019

9:00 – 4:30 (Breakfast and Registration Starts at 8:00 am)

Best Western Chateau Granville, 110 Granville St, Vancouver

GOALS:

Goals of the Day (what we want to accomplish):

1. To use creativity and innovation to move beyond stories of or describing stigmas towards doable action and interventions, programs and services that will make a difference in people's lives
2. To provide space for key stakeholders and experts from across BC -- who have lived experience of or are working with people who use drugs, people with lived HIV or hepatitis C experiences, Indigenous people, gay, bisexual or other men who have sex with men, and people from the African, Caribbean and Black (ACB) communities - to talk about stigma reduction interventions and to provide space and time for networking, building partnerships, and identifying areas of new work
3. To identify existing stigma reduction interventions across the province and country and gain a clear sense of what work is currently being done, where other organizations and individuals may connect and support, and where further work is needed
4. PAN will have a clear direction of next steps in terms of developing a stigma reduction intervention or whether supports or resources are needed in BC for organizations or people doing stigma reduction work
5. ACPNet will begin a process of stigma reduction intervention planning for the African, Caribbean and Black communities in BC.
